Dear Hugh:

Thank you for your recent letter.

We always appreciate expressions of satisfaction with the work that we do. All too often we hear about the things we should do better but little comment is made on the things we might have done well.

Best wishes to you,

Sincerely yours,

Dear Dr. Moyer,

I received my Kappa Phi Kappa key and shingle, and I thank you for sending them. The inscription is correct.

The principal reason for this letter is to thank you for being my advisor and friend for the past four years. I have heard numerous stories of terrible advisors leading students astray or of advisors doing absolutely nothing for their advisees, but to me you were an excellent advisor. You didn't over-advise me or under-advise me. Thank you very much!

Now that I have finished my college career, I hope that our relationship will not end and that I will come back to Penn State occasionally and visit you.

Most sincerely,

Hugh M. Quigley, Jr.

KAPPA PHI KAPPA
National Office
2107 Fifth Avenue North

Dear Brother:

You have been reported by the Alpha Beta Chapter as having been initiated into the Kappa Phi Kappa Professional Education Fraternity and the National Fraternity hastens to extend to you a warm welcome into a fellowship that has proven very delightful and helpful to those of us already enjoying it and which we trust may prove equally as pleasant and helpful to you.

There are a number of things about Kappa Phi Kappa that you will learn from time to time but even now at the beginning of your association with us it seems wise to make wholly clear to you certain things about the fraternity. Please keep in mind the following:

> Kappa Phi Kappa is a professional education fraternity and is not an honorary organization in any sense whatever, except that we trust that each initiate will always consider it an honor to possess membership.
>
> As a professional organization, Kappa Phi Kappa hopes to be able in some measures to serve you professionally. By the same token, the Fraternity expects you to be equally helpful to your associates in its membership.
>
> If Kappa Phi Kappa is to help you and you are to help Kappa Phi Kappa, it is essential that so long as you are in college you attend regularly all meetings of your chapter and that after graduation you avail yourself of every opportunity to join with other members of the Fraternity in gatherings that may be held in your community from time to time.
>
> If upon initiation you paid the sum of $15.00 you have met all your financial obligations to the national office. In return you have received, or will receive, (a) a gold fraternity key, (b) membership certificate, and (c) the OPEN BOOK MAGAZINE so long as you are in college. If, on the other hand, when you paid your initiation fee only $11.40 was included for the national office, you will not receive the fraternity key, but will receive the membership certificate and the OPEN BOOK MAGAZINE. In such case, you can secure the fraternity key at any time that you desire by writing the national secretary at the above address, either asking that the key be sent C.O.D., or including a check or money order, made payable to Kappa Phi Kappa, for $3.60. The sixty cents is for federal tax.

Will you not, here and now, firmly resolve to keep the national office posted as to your correct address at all times?

We have recorded you name and address, for mailing purposes, as was furnished us on your initiation blank. Please check with your chapter secretary to see if this is correct.

If at anytime the national office can assist you, please let us know.

Fraternally yours,
Frank A. Peake

OFFICE OF
DIRECTOR OF ADMISSIONS

March 14, 1950

Mr. and Mrs. Hugh M. Quigley
505 E. Curtin St.
Bellefonte, Pennsylvania

Dear Mr. and Mrs. Quigley:

This is to tell you that your son, Hugh, Jr. made an outstanding score on the College Aptitude Examination which our representative Jack C. Buckle administered recently at your local high school. We cannot give you just now his exact score but we do want you to know that we are mailing this type of letter only to the parents of students who scored as high as or higher than the upper twenty-five percent of last year's class of college freshmen in American Colleges.

140 H 142 TD

We recognize that this test score is only one indication of superior ability and that by itself it is not an absolute predictor of success in college. It is trite to say that attitudes, health, and many other factors enter the picture when success in college is being predicted. But assuming that your son has these several factors in his favor we think he deserves hearty encouragement to continue his education in a good college.

Juniata College has a good reputation in several fields: Liberal Arts; Sciences, including Chemistry, Physics, Pre-Medical, and Home Economics; Music and Business Administration. The prestige of the college is growing constantly because for many years we have admitted only students of superior ability and serious purpose. Naturally this selective admissions policy goes a long way toward assuring equally superior performance by our graduates.

Because your son is superior in aptitude for college work, we at Juniata invite your considered interest and your careful investigation of our curricula, faculty and facilities. If you feel that we can play a part in his development, we shall be proud and happy to consider his application for admission.

In a separate envelope we are sending you some descriptive material about the college. We hope it will stimulate you to write for further information or, better yet, to come to the campus for an interview. Will you let us help you and your son to make his college plans?

Sincerely yours,

J. Melvin Rhodes
